

## Items

Medusa and her Underworld Army will stop at nothing to prevent Pit's progress, but thankfully there are helpful items to be found during **Land Battle**. Some replenish health while others assist your attack or defence. You can find items when playing Solo or Together, although some of them are exclusive to either mode.

Take a look at just some of the helpful items that Pit can come across:

### Treasure Box

What's inside is yours for the taking! But be careful: while most Treasure Boxes contain useful goodies, some of them are rigged with traps...

### Food

Juicy, colourful and delicious, Food comes in many varieties, such as hamburgers, apples, chocolate bars and plates of sushi to be gobbled up, each of them replenishing your health a little bit.

## Drink of the Gods

---

A couple of snacks are all good and well but there are times when you'll be looking for something more nourishing. The Drink of the Gods fully replenishes your health, making it indispensable when you're about to face a giant boss after a harsh battle.

## Back Shield

---

In the heat of battle it's nice when someone's got your back – and this Back Shield provides just the ticket! It's a great temporary line of defence when you're in a rush and have no time to stop and smell the flowers.

## Wrecking Ball

---

The Wrecking Ball rolls in the direction it's struck, making it a useful tool for bowling over foes. As a gigantic iron ball, it can be a bit clumsy, but its fearsome destructive power is worth the trouble.

## Happy Trigger

---

When rapid but heavy fire is required, charged shots can't come quick enough. The Happy Trigger shortens the time it takes to get a charged shot ready, making for a happy trigger finger, indeed!

## Dodge Token

---

Who has time to think about dodging in the heat of battle? Not you, that's who! Equip the Dodge Token to automatically dodge some attacks, provided you're not in the middle of your own attack.

## Centurion Assist

---

He may not be the biggest brawler to bring into battle, but the Centurion Assist can hold his own, providing support for Pit by firing at enemies. A little help is always welcome, right?
